

Simplex Satellite Device AXTracker T3

Housed in a compact, rugged enclosure, the AXTracker T3 supports location tracking and four independent alarm inputs.

The device is delivered complete and ready-to-go. Since the AXTracker T3 has a multi-year battery life, there is no need for an external power source. Easy simplex communication requires no external antenna and provides a low cost, long life tracking and alarm monitoring solution.

Features:

- Self contained - simple installation
- Self Powered - no external power or wiring harnesses required
- Supports up to 4 external inputs
- Up to 7 years battery life

Specifications
