

Wholesale Messaging Solutions

Pivotel Wholesale Messaging Solutions offer Application Service Providers a cost effective method to send and receive high volumes of SMS messages, allowing event notification and customer queries by SMS.

Because Pivotel is a licensed mobile carrier, you can count on our carrier grade infrastructure. Pivotel provides reliable global messaging solutions at aggressive local pricing. We operate our own, high performance, Australian based Short Messaging

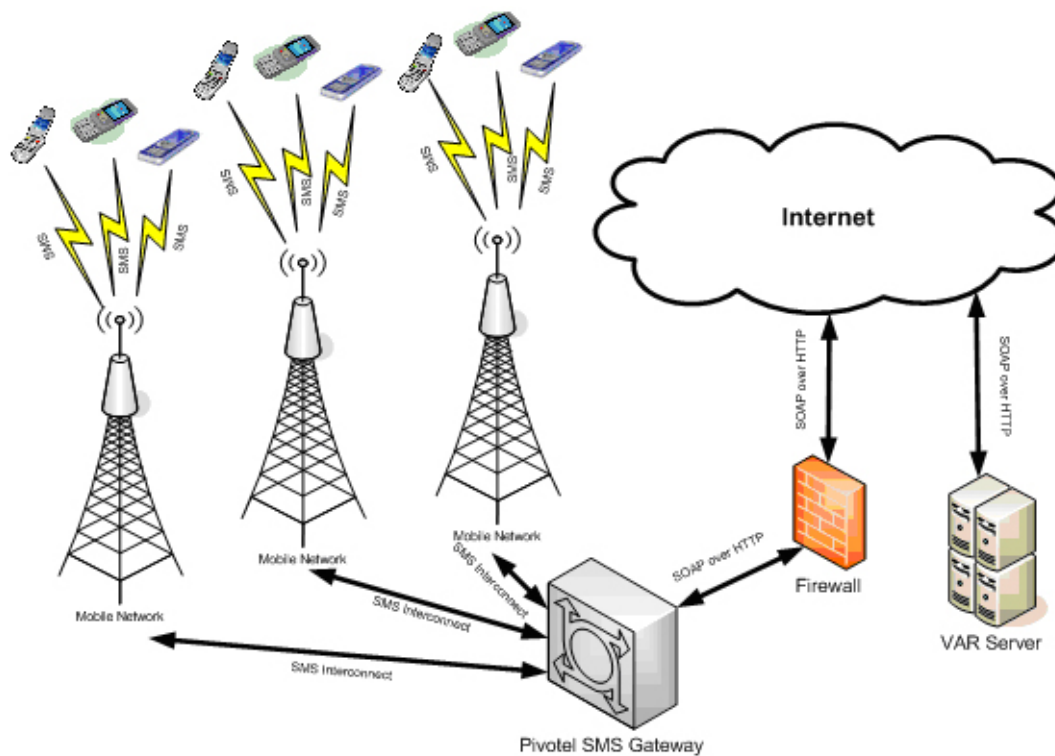

Service Centre (SMSC) with domestic SS7 based interconnectivity with global reach through Sybase 365, the global leader in international messaging.

Pivotel also has the capability to deliver voice notification and text-to-voice notification services.

Features:

- Bulk messaging integrated directly to your application via HTTP/POST and XML
- Reliable Australian based SMSC
- Globally interconnected
- Cost effective solution
