**WARNING:** Cellular International Mobile Roaming (IMR) Services are very expensive for all types of calls, messaging and data. If you are concerned about the cost of IMR Services, you should not use this service and enquire about a local service in the country in which you are travelling. Customers who use cellular IMR Services should be particularly careful about data roaming costs. Unless required, you should ensure data roaming is not enabled in your handset. IMR Service call charges normally take much longer to appear in your account. You should carefully monitor your usage to avoid high bills.

**WARNING:** Premium Services by their nature are expensive. You should carefully read the terms and conditions of any Premium Services you use, in particular the terms and conditions of any subscription based Premium SMS Services. You can stop specific Premium SMS Services by sending a SMS reply with the word "STOP". You can bar access to all Premium Services at any time by contacting Pivotel Satellite customer care.
