

Pivotel Iridium Extreme Carkit

Stay safe with in-vehicle hands-free voice, tracking and SOS!

Designed for in-vehicle use across harsh terrains, the IR-HF-9575 Carkit is the ideal partner for the Iridium Extreme Phone delivering class leading reliability and voice quality. When linked with the TracerTrak tracking application the phone and carkit can be used to monitor the location and movements of the equipped vehicle to provide unparalleled visibility of remote workers and associated communications compliance.

Features

- ✓ Designed for harsh environments - just like your Iridium Extreme
- ✓ Dedicated SOS buttons built into cradle
- ✓ Full duplex hands free operation
- ✓ Two mode operation: loudspeaker or private (via optional privacy handset)
- ✓ Hands free operation is muted when optional privacy handset is activated
- ✓ Mutes car stereo during calls
- ✓ Echo cancellation and background noise filtering for enhanced voice reproduction
- ✓ Loud external speaker
- ✓ Charges phone battery
- ✓ External microphone, mounted with sun visor clip
- ✓ Data transfer via USB
- ✓ Included Iridium Patch Antenna and Cable (other antenna options available)

Sturdy clip mechanism holds the phone firmly. Just press to release the phone from the cradle.
