

Pivotel Iridium 9555 Desktop Dock

Stay connected, and in control!

The Pivotel Desktop Dock for the Iridium 9555 is ideal for remote locations and portable site offices. It is efficiently designed to lay on a flat surface and blend into any professional environment or command centre. While in hands free mode it is great for conference calling, using the built in loudspeaker. The Desktop Dock provides the benefits of a fixed phone with a portability option! Since the dock is charging your satellite phone, you will have a fully charged phone ready to be used either at your command post or when you are out in the field.
